

COVID RECOVERY BAME PROJECT

ENGAGE EMPOWER ENABLE

WHAT DO WE DO?

- Facilitate social prescribing pathways for Black Asian Minority Ethnic (BAME) communities
- Support BAME communities to make better links with health and social care providers
- Work with commissioners + public health to guarantee that BAME communities' health inequalities are effectively reduced or prevented
- Improve access to advocacy services for BAME communities

COVID RECOVERY BAME PROJECT

ENGAGE EMPOWER ENABLE

As part of the response to the Covid-19 pandemic and its impact on Hertfordshire's BAME communities. Working in partnership with Herts Clinical Commissioning and Herts County Council, CDA have been commissioned to deliver the Covid Recovery BAME project (CRB). It is a countywide project which is split into East and West Hertfordshire.

THE AIM OF THE CRB PROJECT

To address inequalities and improve the wellbeing and health of BAME individuals and communities in Hertfordshire.

WHAT DO WE DO?

- Facilitate social prescribing pathways for Black Asian Minority Ethnic (BAME) communities
- Support BAME communities to make better links with health and social care providers
- Work with commissioners + public health to guarantee that BAME communities' health inequalities are effectively reduced or prevented
- Improve access to advocacy services for BAME communities
