Defibrillator and Defib Store cabinet available

£1,095

Sudden Cardiac Arrest (SCA) is a leading cause of premature death in the UK

There are approx 60,000 Sudden Cardiac Arrests in the UK each year

Every minute that passes, chance of survival decreases by 10%

Where a defibrillator is used within 3 minutes, survival rates increase to as high as 74%

Defibrillators are simple to use with audible instructions and visual prompts. No training is needed

Housing a defibrillator outside in a Defib Store cabinet ensures your defibrillator is accessible 24 hours a day, 7 days a week, 365 days a year
