

Paint for your organisation

Community RePaint can supply you with paint at affordable prices, a range of colours and in large quantities, for you to decorate your buildings!

Community RePaint has been in existence since 1993, and now there are over 70 schemes across the UK who seek to redistribute the many millions of litres of paint that become surplus and leftover each year from homes, paint manufacturers, painters and decorators, and DIY retail stores. This paint is reusable but would otherwise be wasted or thrown away. Community RePaint schemes collect this paint and make it available for individuals and families on a low income, local not-for-profit organisations, charities, sports clubs, faith groups and a variety of other community based groups. Most schemes have a wide range of domestic paint available.

Often, community based organisations have premises that they need to decorate yet do not have a large budget. Now, Community RePaint can help!

If your local scheme cannot meet your needs, we have now established two new centres that can supply you with up to 200 litres of the same colour. The cost of the paint will be £1.00 per litre for white and magnolia matt emulsion, and £1.40 for colours. (As an example, a 5 litre container of matt white emulsion will cost £5.00 and colours will be £7.00, plus delivery costs which on average will be £45 per pallet).

Neutral Colour Range

Our Neutral Range is based on natural organic colours. Darker shades are good for creating a cosy, warm feel and the paler shades create a lighter, brighter look.
